SUMMARY

Fullstack developer with experience building scalable web applications across backend and frontend layers. Proficient in designing RESTful APIs, managing relational and NoSQL databases, and integrating third-party services. Strong focus on clean architecture, performance, and secure application design. Experienced in collaborating across teams to deliver reliable, user-focused products.

EDUCATION

University Of Ibadan – Ibadan **Jan 2019 – May 2023**
B.Sc (Ed) Mathematics

WORK EXPERIENCE

Software Development Intern **Feb 2024 - Jan 2026**
ThynkCity Ltd – Lagos

- Contributed to the development and maintenance of core backend services using Python and other third-party apps, showcasing strong analytical and problem-solving skills.
- Collaborated with cross-functional teams, including frontend developers, to ensure seamless integration and a cohesive product.

Mathematics Instructor **Dec 2021 - Jan 2024**
MOCPED International Secondary School – Lagos

- Utilized effective communication skills to collaborate with students, parents, and colleagues.
- Utilized data-driven assessments to track student progress and adjust instructional strategies accordingly.

PROJECTS

Learning Management System (LMS)

- Designed a scalable backend architecture to manage courses, users, and learning content
- Implemented authentication and role-based access control for different user types
- Built RESTful APIs for courses, chapters, assignments, quizzes, and progress tracking

Blogging Application

- Developed full CRUD functionality for posts, comments, and user authentication
- Designed database models for content management and relationships
- Implemented server-side rendering for dynamic content delivery

Todo Application

- Developed RESTful routes for task creation, updates, completion, and deletion
- Designed MongoDB schemas for efficient task storage and retrieval
- Implemented server-side rendering using templating for dynamic UI updates

Portfolio Website

- Built a responsive personal website to showcase projects and technical skills
- Implemented interactive UI components using JavaScript
- Structured content for accessibility and performance optimization

SKILLS

Programming Languages: Python, JavaScript, SQL
Frameworks & Tools: Django, Express.js
Databases: PostgreSQL, MongoDB
Version Control: Git
Other Tools: REST APIs, Third-party integrations
Productivity Tools: Microsoft Word, Excel, PowerPoint
